

SLEEPTECH BEDDING

THE POSTURE RANGE

Deluxe · Control · Sensation · Perfect

Your customers will sleep well knowing that they have all the features they desire from a bed at a value they don't expect. From comfort to support, SLEEPTECH products provide a luxurious and rejuvenating sleep environment. SLEEPTECH is fit for today's fast paced lifestyle and most importantly, fit for budget.

The range architecture encompasses the very latest in engineered coil technology, from the entry point bonnell system to the foam encased 5 zone pocketed coil and the full width pocketed coil in between.

These technologies each represent the best of breed and offer logical coil configuration, zoning and edge support sell up features and benefit strategies. The use of traditional handcrafted tailoring techniques and exotic fill materials further enhances this strategy.

Each SLEEPTECH mattress has been designed to provide unsurpassed comfort and to maintain correct spinal alignment during sleep. The result is that your customer will wake up more refreshed and ready for another active day.

A COMFORTABLE FIT FOR ANY BODY
